The advance made in the Stock Mar least, any further advance except in or or two securities. Some realizing was more two securities. Some realizing was more necessary to the passage of the currency bill to take their small profit. This selling was equaled by buying for the pools and by limited commission house buying. It cannot be said yet if the avance will be continued or not. The location of the proper believe that there is an excellent chance that the warket will be continued or not arrive to the nothing more than a little livelier professional trading. There was a tendence toward higher rates for call loans again this morning, but the Street pays little attention to them, in view of the earligood effects expected from the Currence law.

The annual meeting of the Tennessee Coal and Iron Company was held today, it was said this morning by people closely was said this morning by people closely identified with the company that there might be important developments, but nothing definite was given out. The stock has been fairly strong this week and it is said that insiders are particularly well pleased at the business to be received from the Alabama Steel and Wire Company. The company will have a capacity of 600 tons of steel a day and it will get all of its steel from the Tennessee Coal and Iron Company's new steel mill.

The grangers held their own, but, dur-ing the morning hours, with the exception of Atchison, preferred, made no advance

from yesterday's high prices. Atchison advanced to 673-4 during the first few ainutes of the day. St. Paul continued to sell within a point or so of Burlington. It was one of the stories in the Street that this company will absorb the St. Paul and Duluth issuing stock at par to secure the purchase money. If this is done the rights to the new stock will have a buoying effect on St. Paul stock.

It is stated on good authority that the People's Gas Company is far from being embarrassed in any way or doubtful of the future, and is arranging to expend \$2,000.000 in extensions for new business. The bear campaign against the stock was a sharp one but its action this week encourages the belief that it is over.

market did not appear to excite any perturbation and it was generally believed that all danger of distressing contraction in the money market would be avoided through the operation of the Currency law. The London market for American stocks showed further advances and a generally strong tone was reported there. Foreign houses continue to buy it this market.

Sugar Refining in a further advance was a conspicuous feature in the early dealings and People's Gas, Brooklyn Rapid Transti, and other stocks, in which the short interest is large, advanced rapidly. The granger shares and the other standard issues were also in good reques. Third Avenue was an exception to the tendency of the general market, decli...g rather sharply in the early dealings.

When he was ready to retire at an early hour last night Mr. Fletcher was accompanied to his room by Mr. Talbott. He asked to be left alone, saying that he was all right. Nothing more was heard from Mr. Fletcher. No alarm or apprehension was felt for the man, as such a thought as his attempting suicide never occurred to the Talbotts. Mr. Fletcher has always been an early riser, and when at 7 o'clock this morning he was not up Mrs. Talbott went to his room to call him. She got no response to her calls or knocks and thinking perhaps her father had passed a sleepless night because of worry, and was at last getting rest, decided not to disturbhim. When at 8 o'clock, however, Mrs. Talbott again failed to arouse her father by her calls she became alarmed. She forced open the locked door, and realizing what had taken place she lost but little time in getting her father to the hospital. There the usual restoratives were applied and Mr. Fletcher was sent to a ward. At a late hour he was still unconscious and very weak. Mrs. Fletcher was not informed of her husband's condition. ed of her husband's condition.
